01/09/2014 – 31/08/2016

What is SONET-BULL?

SONET-BULL is an ERASMUS+ KEY ACTION 2 School Education project, which combines modern pedagogical approaches (eLearning and peer learning) with widely used technological means (Internet, social networking, mobiles) in order to provide timely and continuous support to the entire community of stakeholders in dealing with school bullying.

Social Training Platform on School Bullying

The online multilingual training platform of SONET-BULL provides free access on accredited online digital training material and gives the opportunity for interaction among a European school community. The training platform also provides the means to:

- ✓ Upload experiences and best practice in the form of **episodes**
- ✓ Present opinion and foster discussions using **blogs** and **forums**
- ✓ Collaboratively develop training content and scenarios using **wikis**
- ✓ Index all types of content using **tags**
- ✓ Quickly access specific "first aid" content via tags and mobile devices
- ✓ Create **discussion** and special interest **groups** and establish communities of practice

For further details log on to:

<http://www.sonetbull-platform.eu/>

Educational material

The project first set of educational material consists of 10 modules that are available on the on-line platform. Covering three topics, these materials are the results of joint partner work:

- ✓ "Introduction to School Bullying", which contains 1 "Universal Module" that provides basic knowledge on bullying issues and 7 "Individual Group Modules", which provide knowledge and skills specific to the different stakeholders of the school community.
- ✓ "Introduction to Peer Learning Methodology", which describes the peer to peer concept and its implementation in learning environments.
- ✓ "Introduction to the Platform", which aims at facilitating the use of the platform's tools and services.

SONET-BULL trainings to be held in each partner country

If you are a:

teacher trainer psychologist
teacher director head teacher
parent non-teaching staff school counsellor

and you want to receive a training related to the bullying phenomenon and use the SONET-BULL platform tools for free, log on to the project website or contact the project partner nearest to you!

<http://www.sonetbull.eu/>

Trainings

The training will be focused on:

- ✓ Using the platform and the assorted social networking tools
- ✓ Creating educational scenarios and digital contents based on peer learning and crowd sourcing methodologies
- ✓ Uploading best practice, providing comments and advices to peers (thus becoming themselves trainers)

Criteria of successful participation

The trainers who want to complete the

Training will have to:

- ✓ read the education material
- ✓ take two multiple choice tests
- ✓ upload suggested learning objects
- ✓ encourage more users to be active members of the platform
- ✓ use the platform tools to interact with each other.

Training leads to a certificate of participation. In order to fulfil the criteria of successful participation, each trainee should use the platform as a means of interacting with other trainees and peers. These developing communities of practice will produce online content aiming to limit the range of bullying phenomena in their school environment. The content developed during the training will serve as an online, continuously accessible, via the platform, repository of knowledge, stemming from real life situations and experiences of the actors.
